WALL STREET STILL IN LANGUID STATE

Tone of Market Shows Slight Buoyancy at Opening, and Then Suffers Relapse.

NEW YORK, March 21 .- The movement of today's stock market was in large part a working out of conditions established last week rather than a response to any new events bearing on values. The action of the market today was looked to as a sort of test of the character of last week's Saturday seemed to have resolved the doubts of many skeptical observers, and there was sufficient demand to cause a higher opening this morning and to sustain prices firmly, though without further advance, during the active market of the first hour. strength. The buoyant stock market of

tain prices firmly, though without further advance, during the active market of the first hour.

Thereafter the market languished, and attempts to renew the advance met with indifferent success. There had been large realizing, besides a considerable interest established on the short side. The preponderance of the professional desire therefore was for a reaction, and there was not sufficient buying power forthcoming to prevent it. The heavy pressure to sell United States Steel preferred was of especial influence in bringing about the reaction and was not accounted for by any news of a change in last week's better outlook in the trade.

Rumors of a cut in prices of steel billets were dealed. Further rains in the winter wheat belt helped to sustain the grangers in the early market, but did not save them from the late reaction. There was sufficient demand for Northern Securities on the curb to lift it nearly three points over Saturday, which is taken to indicate a feeling of assurance against logics by stockholders in the dissolution of the company. The recovery in the cotton market was a safeguard against further damage by speculative losses there. Western railroad officers spoke in rather cheerful terms of the traffic outlook, but there influence was overborne by the assertion of President Mellen of the New Haven that there had been a slump in usinoss in New England to a degree that alled for large curtailment in railroad ervice. Conditions in the money market were unchanged and were without effect a stocks.

READ IT THROUGH.

'Twould Spoil This Story to Tell It in the Headlines.

To use an eighteenth century phrase, this is an "o'er true tale." Having happened in a small Virginia town in the winter of 1902, it is a story very much of the present. Up to a short time ago Mrs. John E. Harmon of Melfa Station, Va., had no personal knowledge of the rare curative properties of Chamberlain's Cough Remedy. "Last January." she says, "my baby took a dreadful cold and at one time I feared she would have pneumonia, but one of my neighbors told me how this remedy had cured her little boy and I began giving it to my baby at once and it soon cured her. I heartily thank the manufacturers of Chamberlain's Cough Remedy for plac-'ng so great a cure within my reach. I annot recommend it too highly or say too much in its favor. I hope all who read this will try it and be convinced as I was." All druggists.

meat market. Prices were steady all last week and the demand was strong, and this is probably only a small reaction. A large consignment of spring lambs is expected on Wednesday, and after that they

will be plentiful, Dressed pork went down 14 cent per pound. Veal has increased in price.

Another shipment of Eastern chickens was imported yesterday morning, as well as a fresh lot of fish. Salmon, mountain trout, striped bass and cattish were all in good condition. Halibut has been scarce for the past week, but the consignment of yesterday has a better appearance than any that has been on the market for months past.

Potatoes still keep up their price, no abatement can be expected for some time. California new potatoes will probably come in the course of a month or so, but Utah varieties will not be in evidence in sufficient quantities until July.

Prices continue to be up in the grain and hay market. Timothy has gone up from 50 cents to 31 per ton, owing to an increased demand with the coming of spring, and partly owing to the same factor that keeps up the figure of grainstuffs.

Dairy products show no tendency as yet pound. Veal has increased in price.

Dairy products show no tendency as yet to moderate in value, and eggs are still up to \$5 per case.

The amount on passage increased 1,224,400 bushels, while the visible supply decreased 471,000 bushels. Minneapolis, Duluth and Chicago reported receipts of 575 cars, compared with 641 last week and 419 a year ago.

Weakness in wheat had a depressing influence on the corn market, causing heavy liquidation early in the day, which resulted in losses of 1c in July and nearly 1½c in May. The close was steady. July opence a shade to 5474c lower at 59% to 50% cold between 49% to 50% 50% c. May closed down ½c at 52% to 50% 50% c. May closed down ½c at 52% to 50% 50% c. May closed down ½c at 52% to contract grade.

Oats ruled comparatively firm in the face of weakness in wheat. The close was steady with May ½67½c lower at 40c July opened ½c lower at 35% c, ranged between 5% and 50c at 5% c. Local receipts were 203 cars.

Provisions were inclined to weakness on zeiling by commission houses and packers. Lower prices for hogs at the yards, together with the break in wheat and corn were the main bear influences. Pork showed the greatest decline. Covering by shorts caused a fair recovery, the close being steady, with May pork 15c lower at \$12.10. May lard closed 5c down at \$5.24; ribs were of 7½c at \$5.77½.

NOTICE TO WATER USENS.

State Engineer's Office, Salt Lake City, Utah, Feb. E. 1994.—Notice is hereby given that Irving M. Higley, whose postoffice address is Salt Lake City, Utah, has made application in accordance with the requirement of chapter 190 of the Session Laws of Utah, 1992, to appropriate eight-tenths (3-10ths) of a second-foot of water flowing from three certain springs situated in lot 2 block 45. An-acre Plat A, Big Field survey, Salt Lake county, Utah, which springs are tributary to the Milicreek branch of Jordan river. The water is to be diverted by means of dams and ditches into ponds at various places on sald described lot, where it will be used continuously from January 1st to December Sist, inclusive, of each year for domestic purposes and for supplying said ponds with the water necessary for the spawning and propagating of fish, and also for use in irrigating said described lot from April 1st to October 1st of each year. This application contemplates that water equivalent to one-eighth (1-Sth) of the combined flow from the springs will be consumed and that the remaining seven-eighths (1-Sth), after having passed through the fish ponds of the applicant, will be returned to the natural channel leading from said epings to Mill creek.

All protests against the granting of said application, stating the reasons therefor, must be made in writing and filed in this office after thirty (30) days and before sixty (60) days from the date hereof.

A. F. DOREMUS, State Engineer.
